HI-SPEED USB AUDIO/VIDEO GRABBER USER MANUAL

MODEL 162579

manhattan®

Life just got easier.™

MAN-162579-UM-0715-03

INTRODUCTION

Thank you for purchasing the Manhattan® Hi-Speed USB Audio/Video Grabber, Model 162579.

Ideal for sharing favorite video clips or “snapshots” through e-mail or on the Web, the Hi-Speed USB Audio/Video Grabber records and processes data from your camcorder, TV or other media device equipped with S-video or RCA outputs: Just connect the media source to a desktop or notebook computer to capture, convert and edit content. A single-button control with LED indicators activates a built-in chip that encodes directly in MPEG 1/2/4 format, and a full version of the application software is included to help get more professional results with minimal technical proficiency.

By following the instructions in this user manual — or the simpler setup procedure in the printed quick install guide included with the product — you’ll soon be enjoying these popular features:

- Simple, single-button video snapshot and copy-and-pause control
- Plug-and-play installation – requires no batteries or external power
- Compact, lightweight design ideal for travel and notebook computers
- Lifetime Warranty (For a complete list of country-specific warranties, go to manhattanproducts.com/warranty.)

Package Contents

- Hi-Speed USB Audio/Video Grabber
- RCA extension cable
- Software and driver CD with user manual
- Quick install guide

Minimum Recommended System Requirements

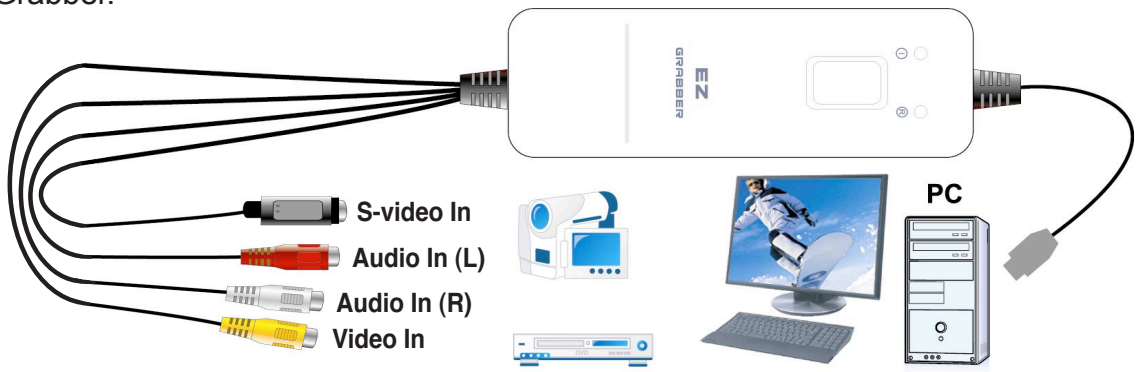
- Hi-Speed USB equipped computer with CD-ROM (for software installation)
- 256 MB RAM, 1 GB free HD space, sound card (AC97 compatible), graphics card (DirectX 9.0c compatible) and Pentium 4 (1 GHz) or above
- Windows XP/Vista/7/8* operating system

NOTE: Screen images presented in this user manual may have been modified to fit the format and can vary slightly depending on your operating system, but the basic installation/operation steps are similar.

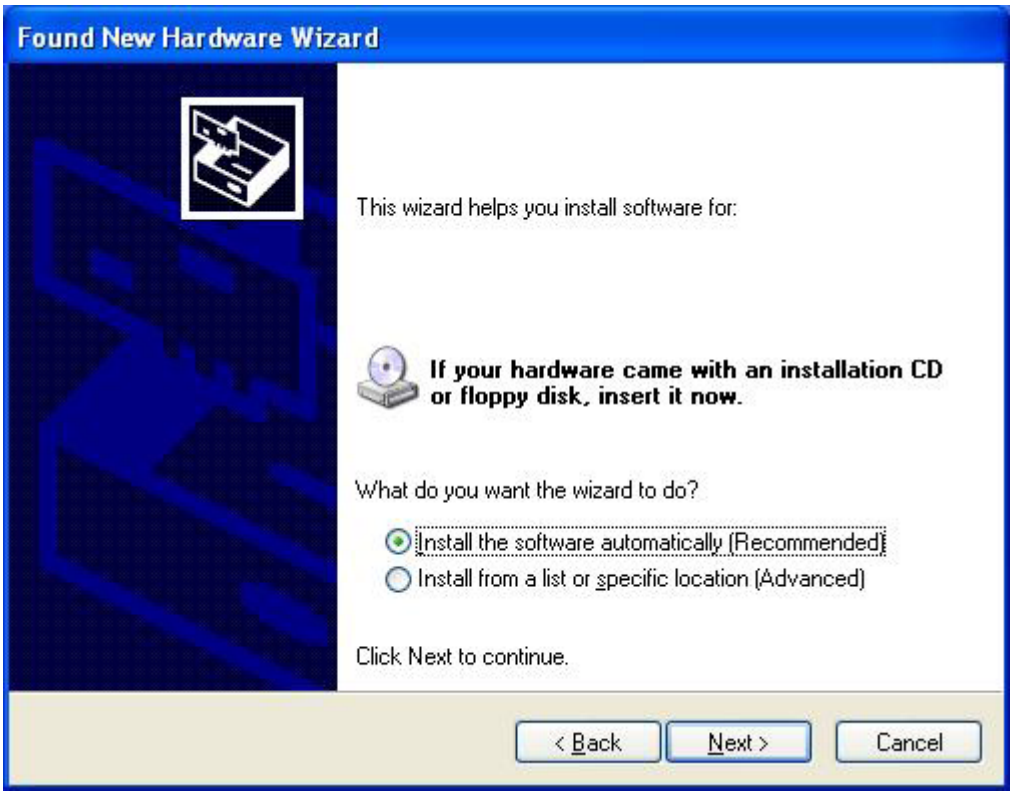
* *The EZ Grabber function is not compatible with Windows 8*.

HARDWARE CONNECTIONS

Using the included RCA extension cable if needed (not depicted in the setup image below), make the appropriate connection(s) between your computer and the media source — camcorder, TV or whatever — through the Hi-Speed USB Audio/Video Grabber.



1. If the device has been connected properly, the Found New Hardware Wizard welcome screen displays (below). Click “Cancel.”



Found New Hardware Wizard
This wizard helps you install software for:
If your hardware came with an installation CD or floppy disk, insert it now.
What do you want the wizard to do?
Install the software automatically (Recommended)

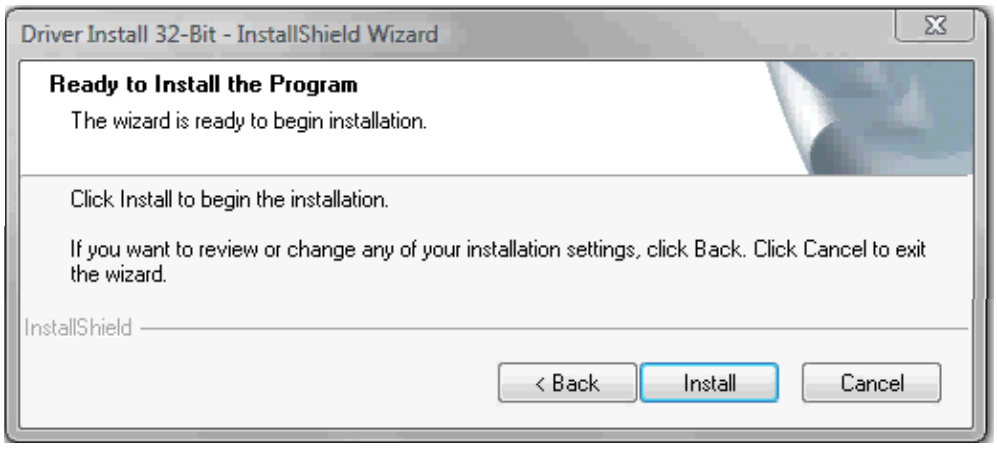
DRIVER INSTALLATION

1. Copy the alphanumeric License Key from the label of the enclosed software CD before you begin, as you'll need it in a later step. Insert the CD in your CD-ROM drive to display the initial menu. Click "Driver Install" or run Driver\Setup.exe.

2. The InstallShield Wizard's initial Preparing to Install screen displays with a status bar to indicate that the process is underway. When the Ready to Install the Program screen displays, click "Install." Click "Back" to return to the previous screen; click "Cancel" to stop the installation.



Driver Install 32-Bit - InstallShield Wizard
Ready to Install the Program
The wizard is ready to begin installation.
Click Install to begin the installation.
If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.
